

Single Door Access Control System

Model: AR/E-KEYPROX/KIT5A

ID number: 87142042

Product features:

- Can be used as a standalone keypad system or a Proximity System
- Entrance gained by entering pin code or prox card/fob
- Egress is by combined exit button with a double pole resettable break glass unit with alarm function and LED indication
- BGU comes complete with a plastic cover to prevent accidental activation
- The reader can also work as a separate controller if used with an extension proximity reader available as an extra (AR/E-RD26)
- The kit comes with 5 proximity fobs as standard (Extra fobs or cards can be ordered if required)
- This system allows up to 500 users

Kit content:

- 1 x Mini magnet 300kg surface mount
- 1 x keyprox reader surface mount c/w 5 fobs
- 1 x Z and L bracket kits
- 1 x Dual unit exit button c/w break glass unit surface or flush mount
- 1 x 2 amp 12vdc power supply unit with charging facility (Battery not included)

Additional Information:

- Ideal for use on shops, office blocks, banks or schools where a standalone system is required for fail safe applications
- Can be easily integrated with an existing fire alarm system by using a fire alarm relay.
